Keith

Dear Art, According to the LA information operator, Dalton Trumbo has no listed phone. So, I could not get his address. I hope you can get it and mail the enclosed, stamped letter or, better yet, if you know him and find the time, could deliver it with what I hope you could assure him, that I don't have two heads, do have two feet, and usually keep both fairly close to the earth. There is a chance that his getting this letter could be helpful to me in some ways, and I've never needed help more! Hope things are going well in your new career. Thanks and best regards, IW 1/22/73
